Signature _____ Date _____

OFFICE USE ONLY – STICKER # _____

STUDENT PARKING GUIDELINES

Students are to apply for parking permits during the time designated by the building administration. Students must register each car they drive to school; students are NOT permitted to share parking permits. In order to register a vehicle, students must complete the application and provide a copy of their driver's license, auto registration, and insurance coverage. Parents must sign the application prior to submitting it for approval by the building applications are to be returned to Mrs. Liz Walck in the HS Main Office. The fee for a parking permit \$5.00. Any student needing to replace their parking tag for any reason the cost will be \$10.00. All students will be issued a receipt for payment when the parking permit is granted. Once approved, a permit will be issued in the form of a parking tag. Parking tags must be visible at all times on school property.

Parking is a privilege. As such, parking permits will be awarded to students who demonstrate a history of consistent attendance, satisfactory academic performance, and appropriate school behavior. Permits will be assigned to seniors and juniors on a first come first serve basis until all parking spaces are filled (dually enrolled students will be given priority). In the event that requests exceed the number of available spaces, students will be placed on a waiting list and presented with a permit as soon as possible. Sophomores may be approved for a parking permit if space is available.

Every student granted the privilege of parking on the Secondary Campus is expected to abide by established procedures; failure to do so may result in revocation of the privilege. Vehicle violations include, but are not limited to, the following offenses:

- Failure to follow established student parking/driving procedures as defined in the Student Handbook
- Parking without a visible permit
- Parking in an unauthorized area
- Driving in the bus lane
- Reckless driving on school property.

Equally important, all student drivers are expected to maintain strong academic standing, limited disciplinary problems, and consistent school attendance. Specific examples of reasons to be concerned include, but are not limited to, the following scenarios:

- Dramatic decline in grades
- Attendance letters delivered to home
- Repeated referrals for late arrival to school which trigger disciplinary consequences and generate administrative concern.

Consequences for failure to abide by parking/driving procedures and/or fulfill the expectations associated with the privilege are as follows:

- 1st offense — Students will be given a warning.
- 2nd offense — Students may be subjected to the suspension of parking privileges.
- 3rd offense — Disciplinary action and permanent revocation of the parking privilege.

*It is important to note that when a parking permit is revoked, the school district is not revoking the student's right to drive, but rather the privilege to park on school district property. Students in violation of parking guidelines may have their vehicle towed at the discretion of the District and the expense of the owner.

The Crestwood School District policy of weapons, smoking, drugs and alcohol applies to student transportation. Students will not possess, use, furnish, or sell controlled substances or alcohol from vehicles on school grounds. Violations will be dealt with according to Crestwood School District policy. Students are not permitted in the parking lot or in their cars without authorization from the building administration.

Students are expected to abide by all driving and traffic regulations established under the vehicle code of the Commonwealth of Pennsylvania. Students who violate this code on school property will immediately lose their parking permits for a minimum of thirty (30) school days*There are NO REFUNDS on parking permits.
