Note #1: If you have students who have different last names, you can pick the time period for one of your students and you will be able to get materials for all of your children. Please be patient, this may take us a little longer to retrieve those belongings.

Note #2: Your student does not have to be in the car to pick up materials and you can have other people pick up materials for your child. The person picking up the materials must have your child's name, grade level, and combination to the lock (if there is a lock in use)
